PROFILE

Professional Flutter and iOS developer with 2+ years of experience building Android, iOS, and web-ready mobile applications. Strong in Flutter, Dart, Swift, REST API integration, Firebase, local storage, production releases, app performance, and polished mobile UI delivery.

SKILLS

Languages: Dart, Swift, Kotlin, Java, C++
Frameworks & SDKs: Flutter, Firebase, native iOS, method channels
State Management: Riverpod, Bloc, Provider, ValueNotifier
Backend & Data: REST APIs, Cloud Firestore, SQLite, Hive, Google Drive API
Tools & Platforms: Git, Android Studio, Xcode, VS Code, Figma, Android, iOS, Web

EXPERIENCE

Flutter Developer - GTS Infosoft LLP

22 Jan, 2024 - Present

- Developed and maintained cross-platform Flutter applications for Android and iOS, integrated REST APIs, implemented state management, optimized performance, and fixed production issues.
- Collaborated with designers and backend developers to deliver reliable, production-ready mobile solutions.

iOS Developer - GTS Infosoft LLP

July, 2024 - Present

- Built and maintained iOS applications using Flutter with native iOS deployment, managed App Store releases, certificates, provisioning profiles, and iOS-specific fixes.

SELECTED PROJECTS

PaathBook Bhasa - Personal Product

Flutter, Riverpod, Localization, Offline Dictionary, AI Fallback

- Reading-first language learning product with stories, vocabulary, conversations, normalized dictionary lookup, and gamified progress.

Khoj Samachar

Flutter, News Feed, Push Notifications, Method Channels, Native Android

- Solely developed Android and iOS news app with native Android calendar widget, custom persistent notification view, and notification scheduling through method channels.

WikiBG

Flutter, Content Platform, Editorial Workflow

- Built a verification-first biography and documentation reading app connected to the official WikiBG platform.

PaathBook - Personal Product

Flutter, Firebase, SQLite, PDF Tools, Method Channels

- Built privacy-focused Nepali GK, grammar, quiz, bilingual learning, and PDF utility app with Firebase-to-local SQLite sync to reduce backend reads.

Additional Production Work

Flutter and Native iOS

- Contributed to EventLocal, The Academix, DartsKey, Timelee, ScanPix, Bender, Coaching Zone, and Food Dudes across networking, education, productivity, scanner, social, sports, and delivery domains.

EDUCATION

Bachelor of Computer Applications - Your University / College Name

20XX - 20XX | City, Country

- Placeholder academic entry. Replace with real degree, institution, dates, score, coursework, projects, awards, or certifications.

Higher Secondary Education - Your Higher Secondary School Name

20XX - 20XX | City, Country

- Placeholder entry focused on computer science, mathematics, and analytical problem solving.
